DESCRIPTION Pediatric Intensive Caring Program-This program is designed for families who have had a baby admitted to the Newborn Intensive Care Unit (NICU) or an infant/child admitted to the Pediatric Intensive Care Unit (PICU). Pediatric nurses provide developmental, physical, and environmental assessments, assure medical home, facilitate community referrals, and work with community partners to enhance development.

Newborn Intensive Care Program-This program provides a system of specialized nurse consultation for medically at-risk infants and toddlers who have spent at least five days in the Newborn Intensive Care Unit (NICU).

The Arizona Early Intervention Program-(AzeIP) is a service for families of children birth to age three who are exhibiting, or who are at risk for, developmental delays. Our team of professionals provides families with information and help to best support their child's development.

Smart Support-Partners early childhood mental health consultants with child care providers to enhance the classroom environment and improve overall quality. Smart Support can help: ensure children are engaged and learning; manage children's difficult behaviors effectively; enhance staff communication skills; staff talk with parents about children's needs and behaviors; and provide referrals to community resources as needed.
